

Learning Outcomes

Upon completing this module, students will be able to do the following:

1. Apply knowledge of archaeological chemistry and botany to identify evidence for alcohol, chocolate, and drugs in archaeological contexts
2. Describe the social role of chocolate and alcohol in diverse ritual settings
3. Identify cross-cultural similarities in the role of alcohol in community formation
4. Appreciate the diverse social functions of psychoactive drugs across human history
5. Assess the potential and limits of stable-isotope analysis in reconstructing diet

Learning Materials

The learning materials that are hosted from the BU Libraries can be found by clicking the [BU Libraries Course Materials](#)

(https://bu.leganto.exlibrisgroup.com/leganto/public/01BOSU_INST/lists/42500910150001161?auth=SAML) link on the course homepage. There may be additional materials listed in your Syllabus that are not from the BU Libraries system. **Check your Syllabus.**

Module Tasks

Review due dates in this module's Content, the course Syllabus, Calendar or Gradebook.
