

Learning Outcomes

Upon completing this module, students will be able to do the following:

1. Understand how the evolutionary history of primate and hominin diet contextualizes dietary options for the modern human species
2. Place the human diet of the Pleistocene within its climatic and ecological context
3. Assess the evolutionary claims made by proponents of the Paleo Diet
4. Describe basic methods for the recovery, identification, and interpretation of animal bones from archaeological sites

Learning Materials

The learning materials that are hosted from the BU Libraries can be found by clicking the [BU Libraries Course Materials](#)

(https://bu.leganto.exlibrisgroup.com/leganto/public/01BOSU_INST/lists/42500910150001161?auth=SAML) link on the course homepage. There may be additional materials listed in your Syllabus that are not from the BU Libraries system. **Check your Syllabus.**

Module Tasks

Review due dates in this module's Content, the course Syllabus, Calendar or Gradebook.
