

Learning Outcomes

Upon completing this module, students will be able to do the following:

1. Evaluate the opportunities and challenges of food abundance
2. Assess the cultural contexts and social meanings of food sharing and feasting
3. Identify storage methods used to preserve foods and their archaeological signatures
4. Appreciate how fermentation contributes to diverse methods of food preservation
5. Assess the potential and limits of chemical-residue analysis for identifying food traces

Learning Materials

The learning materials that are hosted from the BU Libraries can be found by clicking the [BU Libraries Course Materials](#)

(https://bu.leganto.exlibrisgroup.com/leganto/public/01BOSU_INST/lists/42500910150001161?auth=SAML) link on the course homepage. There may be additional materials listed in your Syllabus that are not from the BU Libraries system. **Check your Syllabus.**

Module Tasks

Review due dates in this module's Content, the course Syllabus, Calendar or Gradebook.
